

Coral Class - WB 21.2.22

English

This week we have been reading the story *Iggy Peck, Architect*. In the story, Iggy Peck saves his classmates on a school trip by building a bridge. This got our engineering brains working and the children have been designing bridges and writing a set of instructions for making one. They chose from suspension, arch, beam and cantilever bridges.

Maths

We have continued looking at money this week. The children recapped their knowledge of recognising different coins and their value and later in the week we challenged ourselves and applied our subtraction skills to find change. We also celebrate Number day.

Number Day

We loved celebrating number day and the children took part in lots of fun activities. We set the classroom up as a shop and the children had to pay for items. We took part in an orienteering code crack, where the children had to solve a code revealing they had some extra play time and had a Who Wants to be a Mathionaire maths quiz. Thank you for all of your kind donations.

Art

We have begun our 3D design topic in art this week. We are looking at Islamic patterns and how they use symmetry, shapes and colours in their design. The children have been manipulating clay as they plan to make some clay coasters/mats.

Phonics

This week we have been learning all about compound words. They are two words that have been placed together to make one new word. E.g. basketball, farmyard

Next week's words: *there, their, they're, to, too, two*

Other curriculum subjects

- DT - making our bridges
- PE- Striking and fielding
- RE- What is Easter?
- Music-Harmonies
- PSHE - Healthy Me

Song of the Week

Dates for the Diary

- Tues 1st March - Parents in for stories (2.30)
- Weds 2nd March - Parents in for stories (2.30)
- Thurs 3rd March - World book day (Costume or PJs)
- Fri 4th March - Parents in for stories (2.30)
- Tues 15th March - Safer Internet Day
- Fri 18th March - Mad Science Workshop
