

Ruby Class - WB 7.2.22

English

This week is intergenerational week so we have been writing letters to the elderly. We picked apart what makes a letter successful and examined where the address needs to go and the language we should use such as 'Dear' and 'Yours sincerely'. In their letters the children shared lots of their new historical knowledge and asked lots of questions for to learn even more.

Maths

We have begun looking at money this week. The children recapped their knowledge of recognising different coins and their value and later in the week we challenged ourselves and applied our addition skills to use these coins to make different amounts.

Science

We have continued to think about what would be best to build a roof. This week we tested different materials to see which would be the strongest. We slowly added more and more weights until the material finally broke.

DT

We have looked at how to eat healthily the last few weeks and this week we applied our knowledge to create a healthy eating invention! The children all designed a machine to help people eat healthily. We had lots of great ideas including a Hoover that sucks sugar out of food!

Other curriculum subjects

History- Solar power
PE- Striking and fielding
RE- Prayers
Music- Improvising
PSHE - Teamwork

Phonics

This week we have been learning the rules for tion and sion. We learnt that a tion makes a "shun" sound and sion makes a "zhun" sound.

Next week's words: cold,
gold, hold, told, every

Message from the team

On behalf of the entire Ruby team, I would like to thank you for your continued support throughout this half term. Have lots of fun next week and make some memories - Mr Ainley
