

Year One News

Friday 22nd September

Phonics

In phonics we have to recap on some of the Basics 3 sounds. This week we looked at: **ai ee igh oa**

Please see separate Supersonic Phonics newsletter for more information.

English

In English this week, when writing about dinosaur characters, we recapped on what makes a super sentence and focused on remembering capital letters, fingers spaces, full stops and to sound out words carefully. Some children were challenged to include more detail and to use the word 'and.'

Maths

This week in maths, we practised counting accurately, including counting a number of objects from a larger group. We also looked at representing numbers in different ways.

At home, see if you can represent (show) a number to 10 in different ways using things you find around the house or garden.

Science

In science this week we discussed seasonal changes and signs of autumn and predicted what we thought would happen to our class tree as we go further into autumn.

Dino Park

We all had a roarsome time at the dinosaur park today, hunting for dinos in the woods, navigating the maze, exploring the play equipment and having a general explore! Everyone coped really well with such an exciting trip so early on in the school year. There should be some very tired children tonight!

PE

Our first unit in PE is team building. We have started to use our communicating and collaborating skills to work in pairs and small groups to complete different physical activities.

Please don't forget to send in a shoe box before the beginning of October for our DT work if you are able to.

Dates for your diary

Dates for
your
diary.....

13th October – Show Racism the Red Card Day – wear red

17th and 18th October – Parents evenings

20th October – break up for half term
