

Year Two News

Friday 16th February

English

This week we have written a fact file all about Edith Cavell. We started our learning on her last week and continued to learn a little more this week within our English lessons. We even had a chance to hot seat Edith Cavell and ask her some questions! We revisited the fact file we did on Mary Anning in Autumn term and thought about how we can make our fact file this time even better!

See if your child can tell you anything about Edith Cavell.

Intergenerational Week

It was so lovely to have the children's grandparents and older generations in this week. The children loved welcoming them into their classrooms and playing games with them. We even had a visitor from Sprowston Citizen Club who we were able to ask questions to.

Year 2 Class Cafés

In the week beginning 4th March, we will be hosting a class café for Ruby and Coral. During this café we have been tasked with a Science Challenge from our friends at the Ogden Trust Science network. We have to use materials provided within the café to measure one minute.

We will be doing this through making a marble run. The children will learn more about this in their first science lesson back from half term before the café.

A winner will be chosen and will go on to represent the school at the Norfolk Science Festival later this year.

Please feel free to join us and help your child with this exciting challenge.

Thank you!

All of the Year 2 team would like to say a huge thank you for all of your support this half term! We hope that you and your families have a wonderful week making lots of memories together!

Phonics

This week we have been looking at suffixes again but this time we have been changing the y to an i and adding er. For example: funny → funnier & hungry → hungrier. This rule happens when it is a comparative adjective. For example: The bear is furrer than the rabbit.

Maths

This week we have recapped our knowledge of multiplication and division. The children have been looking at the 10 and 5x table. We have been counting in tens and our fives and using both multiplication and division.

1 Minute Maths

A game that you could use this week within the multiplication folder is looking at counting in 5s and 10s, multiplication by 5/10 and 5x and 10x table facts.

Spreading the Love

This week the children all decorated pebbles with words or sentences of kindness to spread some happiness and love. We will be putting these outside our school fence in Sparhawk Park. Please feel free to take a little look and perhaps even take one for yourself! 😊

Dates

Monday 26th Feb – Back to School

Friday 1st March- Deadline for Extreme reading photos on Tapestry

Monday 4th Mar- Ruby Class Café@ 1:45pm

Tuesday 5th Mar- Diversity café @ 2pm
