

Year One News

Friday 28th June

Phonics

In phonics this week we continued to learn our Switch it sounds. We looked at: a (angel), a (watch), ou (mould), o (monkey).

Please see separate Supersonic Phonics newsletter for more information.

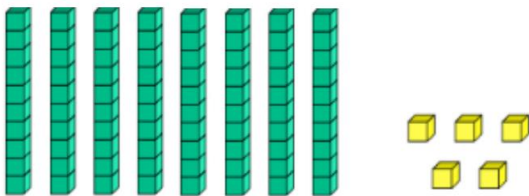

English

This week we wrote our own record-breaking poem! We learned about adding 'est' to words e.g. tallest, fastest, and then used some of these words in our poem. We also used similes and some children challenged themselves to include alliteration too. Watch this space for our record-breaking attempts coming soon...!

Maths

This week in maths we have been looking at numbers from 50 to 100. We have counted, ordered and partitioned the numbers into tens and ones, as well as filling in missing numbers to 100 on number lines.

Science

We had lots of fun exploring our sense of taste in science this week! We tried different foods and tried to decide if they tasted sweet, savoury, salty, sour or bitter. We also spoke about which we did and didn't like and gave them scores.

Geography

This week in geography we continued with map work and looked at what physical features are. We then began to create our own maps that we will be adding to next week.

Computing

We have continued to explore the programming app Scratch Jr this week on the iPads. We have been adding different sprites (characters) and programming each one to move around the screen in different ways.

Dates for your diary

Dates for
your
diary.....

3rd July - Transition activity in new classes

4th July - Transition activity in new classes

11th July - Transition activity in new classes

19th July - last day of school

A huge well done to all of the children for super running this morning and great work this afternoon trying each of the sporting activities! It was lovely to see the children persisting and supporting each other so well. 😊
