

Year Two News

Friday 7th June

Quizzes (SATs)

This week the children have completed some Maths quizzes. They have all done amazingly well and we are so proud of them! We will continue with the other quizzes next week.

Phonics

This week we have been looking at suffixes again but this time adding ment, ly and ful. For example:
enjoy → enjoyment
quick → quickly
colour → colourful

Donations

Please could we ask for any tins to be donated by next week for our Kenyan art project.

Reading at home

Please could we ask for you to continue to read with your child as regularly as possible. Over the holidays every time your child reads they will be able to earn a reading bead for their team and a prize is awarded to each child at the end of the half term. If you need any support with your child reading to you out of schooltime then please let a member of the team know.

Science

Within our science learning this week the children identified that grown adult animals (and humans) have offspring. We discussed what the word offspring meant and then looked at photos of animals offspring and how they change as they grow. We spoke about how some animals have live offspring and some hatch from an egg, we will be looking into this further over the next few weeks.

Transition

Over this half term there will be lots of discussions both in and outside of our learning around transitioning and preparing ourselves for the next school. Although this can be a difficult time for some children, we also want to make it a positive experience and make the children aware that it is good to talk about these things and to talk about our worries (if any).
The children will also have transition dates to go and see their new school and teacher. If you have any questions regarding transition please feel free to speak to the class teacher.

Dates

Mon 10th June- Coral Class final swimming
Fri 14th June- Day of welcome (wear Yellow and Green)
Mon 17th June – Swimming begins (Ruby)
